

Rajeev TUMMALA

HSBC Securities Services

Rajeev works in HSBC Securities Services Digital product in support of the overall digital agenda of HSBC Securities Services. He has been primarily involved in developing the capability to service Digital Assets and is engaged with Clients, Financial Market infrastructure providers to create solutions for custody, issuance and asset servicing for digital assets and tokenizing traditional assets.

Rajeev is with HSBC Securities Services since April 2018 and prior to that he spent 10 years at Bank of America Merrill Lynch in various leadership positions in Global Markets Technology and Securities Operations transformation teams in Asia.

He is a business technologist with a keen eye for exploring the effective use of emerging capabilities of technology in Markets & Securities Services. He has worked with Broker Dealers and Securities Services Technology providers for over 22 years (in India, Japan and Singapore) across a range of Innovation, Technology, Data, Change and Service delivery roles. His focus has been on business transformation and he has deep experience in business domain and technology strategy, transformation and cost optimization. He led the technology teams and innovation work streams to drive change led by digital capabilities.

Rajeev holds MBA (High Honour's) from Booth School of Business, University of Chicago and a Bachelor of Engineering from BITS-Pilani in India.
